CAREER OBJECTIVE

Dedicated and results-driven professional currently contributing as a Full Stack web developer at Pine Labs Pvt Ltd. Seeking continued opportunities for professional development and advancement within the organization, leveraging advanced knowledge of web design and leadership abilities to exceed client expectations and contribute to the growth of the company.

WORK EXPERIENCE

- **Sr. Software Engineer (April 2024 - Present)**
- **Software Engineer (Nov 2022 - March 2024)**

Pine Labs Pvt. Ltd
Koramangala, Bengaluru, Karnataka 560095
November 2022 - Present

Key Achievements and Responsibilities:

- **Microservice Development:** Spearheaded the end-to-end development of a mission-critical message queue microservice, managing both frontend and backend components**.**
- **Solo Project Management:** Solely led the project, demonstrating exceptional project management skills to ensure the successful delivery of the message queue microservice.
- **Technology Optimization:** Optimized project costs by transitioning from Iron.io to ActiveMQ as the message broker, reducing API call expenses without compromising service quality.
- **Tech Stack:** Implemented backend using Node.js, MongoDB, Go, and MySQL, ensuring robust and scalable performance. Frontend Crafted an intuitive user interface with Vue.js and Vuetify, enhancing user experience and functionality.
- **Feature Development:** Developed key features such as gift card activation, cancellation, resetting, adding gift cards to wallets, and shipment handling, significantly improving product offerings.
- **Bug-Free Performance:** Achieved a remarkable milestone by delivering a bug-free microservice, showcasing meticulous attention to detail in coding and testing processes.

- **Full Stack Web Development Trainee**

Masai School
Bengaluru Karnataka 560034
September (2021) - November (2022)

PROJECTS

CoSchedule Clone

Developed a CoSchedule clone as a single-page application featuring multiple auth-protected routes. The app includes secure login/registration functionality, allowing users to add, update, delete, and manage tasks by date. Task data is stored in a database, enabling users to log in anytime and access their tasks with full CRUD operations.

Teck Stack: NodeJs | MongoDB | Express | Javascript | React | Redux | Chakra UI

Spotify 2.0

Developed a dynamic music website featuring music playback, advanced controls for play/pause, volume and sound adjustments, along with a seamless music search functionality. Focused on providing a smooth and user-friendly audio experience.

Teck Stack: Javascript | React | Redux-Tooklit | Tailwind CSS | REST API

EDUCATIONS

- **Bachelor Of Computer Application**

Amrita Vishwa Vidyapeetham
Amritanagar Coimbatore 641112
Jan (2024) - Dec (2026)

- **Diploma**

Government Polytechnic Lucknow
Lucknow Uttar Pradesh 226016
April (2019) - March (2024)
